 The Isoperimetric Theorem. Feb., 118-22.  
 More On Flow Proofs in Geometry. Sept., 434-36.  
 Odd Pie Fights. Jan., 61-64.  
 On the Radii of Inscribed and Escribed Circles of Right Triangles. Sept., 462-64.  
 Pie Packing. Oct., 519-22.  
 Polygons, Spirals, and Shells. Sept., 409-12.  
 Preparing for Pythagoras. Nov., 599-602.  
 Right Isosceles Triangles on the Geoboard. Jan., 24-27.  
 Right or Not: A Triangle Investigation. Apr., 279-82.  
 Serendipity on the Area of a Triangle. Apr., 273-75. *See also* Dec., 647.  
 Spirolaterals: Advanced Investigations from an Elementary Standpoint. Mar., 166-69.  
 Two Derivations of a Formula for Finding the Distance from a Point to a Line. Mar., 196-98. *See also* Dec., 646.  
 A Unification of Two Famous Theorems from Classical Geometry. May, 363-67.  
 Writing Equations for Intersecting Circles. Apr., 296-98.

## Solid

Faces of a Cube. Mar., 199-202.  
 Maximizing Volume. May, 353-54.  
 On Archimedean Solids. May, 371-76.

Polyhedra Planar Projection. Sept., 438-43.  
Rectangular Solids with Integral Sides. May, 368-70.  
Smart Soap Bubbles Can Do Calculus. May, 377-85.

#### **Transformation**

Duplicating the Cube with a Mira. Mar., 204-8.  
Graphing Inverse Functions. Apr., 276-77. *See also* Oct., 487.  
Pythagorean Theorem and Transformation Geometry. Oct., 512-15.

#### **Hand-held Calculators**

*See* "Computers and Calculators."

#### **History**

New Publications, 76, 391, 477-78, 545, 634-35, 709.

#### **Learning Laboratory**

*See* "Teaching Methods—Laboratory."

#### **Mathematics in Other Countries**

Postscript on a Visit to the People's Republic of China. Dec., 648-54.

#### **Mathematics Laboratory**

*See* "Teaching Methods—Laboratory."

#### **Measurement**

New Products, 467, 705.  
New Programs, 301, 542-43, 631.  
New Publications, 75, 155, 393, 477, 711.  
Metrication Aids Education—and Vice Versa. Apr., 254-60.  
The Tenth Step—Metric Time and Angles. Apr., 248-53. *See also* Oct., 488.

#### **Metric System**

*See* "Measurement."

#### **Minicalculators**

*See* "Computers and Calculators."

#### **NCTM**

##### **Affiliated Groups**

Board Action on the 1978 Delegate Assembly Resolutions. Feb., 157-58.

##### **Finances**

Annual Financial Report. Mar., 236-37.  
Auditor's Report. Mar., 237-38.

##### **Meetings**

Minutes of the Annual Business Meeting. Jan., 77-79.  
Professional Dates. Jan., 80, Feb., 159-60, Mar., 239-40, Apr., 318-19, May, 399-400, Sept., 479-80, Oct., 558-59, Nov., 639-40, Dec., 712.

#### **Officers, Committees, Projects, and Representatives**

Committees and Representatives, 1978-79 Supplemental List. Feb., 158.  
NCTM Affiliated Group Officers. Apr., 305-16.  
NCTM Officers and Directors Elected in 1979. Oct., 548-51.  
Officers, Directors, Committees, Representatives, and Executive Staff (1979-1980). Oct., 551-56.

#### **Number Theory**

*See* "Algebra" or "Arithmetic."

#### **Opinions and Philosophies**

Report on the Essay Contest. Sept., 402.  
Thanks from the Editorial Panel. Dec., 701-4.  
Why I Teach Mathematics. Mar., 185-87.

#### **Probability**

New Products, 705.  
New Publications, 393, 635.  
The Probability of Winning Dice Games. Sept., 458-61.  
A Problem in Probability. Nov., 595-97.

#### **Statistics**

New Products, 469.  
New Publications, 304, 477, 711.  
Statistics for the Non-College-Bound Student. Feb., 137-40.

#### **Teacher Education**

New Publications, 155, 473, 479, 632, 634, 711.  
Bald Eagles, Sperm Whales, and Mathematics Teachers. Sept., 424-27. *See also* Sept., 404, Dec., 643.  
Competency Identification and Assessment in Mathematics Teacher Education: Some Issues. Nov., 571-79.  
Results of a Questionnaire on Secondary Mathematics Teacher-Education Programs. Oct., 530-36.

#### **Teaching Methods**

GCM + TC + PR—a Formula for Survival in a Non-academic Mathematics Class. Nov., 580-83.

##### **Discovery**

Guessing, Mathematical Induction, and a Remarkable Fibonacci Result. Nov., 613-16.

##### **Games and Puzzles**

New Products, 69-71, 389, 705-6.  
New Publications, 76, 152-53, 303, 393, 477-78, 709-10.  
A Calculator-assisted Fairy Tale. Dec., 683-84.  
Crossfactor Puzzle. Jan., 48-49.  
Dunnwood Squares. Apr., 244-46.  
The Fifteen Puzzle. Nov., 603-7.  
Fun at Christmastime. Dec., 669-73.  
The Golf Tee Problem. Jan., 53-57.  
Line Info Game. Apr., 271-73.  
Property Games. Oct., 510-12.

Questions about Numbers outside the Mathematics Classroom. Nov., 624-25, 608.

Some Mathematics on the Balance Scale. Mar., 222-23.

Star Trek Logic. May, 342-43.

Student Teams in Mathematics Class. Oct., 505-8.

Two Sides to Zero: An Arithmetic Game with Integers. Feb., 88-90.

Who Is Quickest with Mind and Fingers? Feb., 123-26.

X-Game—Some Consequences. Jan., 5-8.

#### Laboratory

See also "Worksheets."

New Products, 467-68.

The Power Box: A Solution to Calculator Logistics. Oct., 516-17.

Right Isosceles Triangles on the Geoboard. Jan., 24-27.

A "Stencil Method" for Solving Quadratics of the Type  $ax^2 + bx + c = 0$  That Have Real Roots. Dec., 661-67.

#### Tests

New Publications, 155.

The Eighth U.S.A. Mathematical Olympiad. Dec., 658-59.

The Twentieth International Mathematical Olympiad. Jan., 67-68.

#### Trigonometry

New Publications, 304, 478.

A "Complex" Proof for a Geometric Construction of a Regular Pentagon. Jan., 65-66.

Phantom Points. May, 395-98.

Two Derivations of a Formula for Finding the Distance from a Point to a Line. Mar., 196-98. See also Dec., 646.

#### Visual Aids and Audiovisual Material

See "New Products" under content area.

#### Worksheets

New Products, 630.

A Calculator-assisted Fairy Tale. Dec., 683-84.

Compound Interest à la Simple Calculator. May, 359-62.

Earthquakes and Venn Diagrams. Sept., 428-32.

Fun at Christmastime. Dec., 669-73.

The Isoperimetric Theorem. Feb., 118-22.

Pattern Gazing. Jan., 39-43.

Pie Packing. Oct., 519-22.

Polyhedra Planar Projection. Sept., 438-43.

Preparing for Pythagoras. Nov., 599-602.

Spirolaterals: Advanced Investigations from an Elementary Standpoint. Mar., 166-69.

Tower Trainees. Dec., 679-82, 711.

COMMITMENT TO EXCELLENCE IN MATHEMATICS EDUCATION...

## MATHEMATICS EDUCATION TRUST

established by the  
National Council of  
Teachers of Mathematics

#### Why contribute to this fund?

- Special projects usually need financial support beyond what can be contributed by any one individual.
- You will have the satisfaction of seeing your money accomplishing something that needs to be done.
- You will join an extra special group, committed to achieving excellence in mathematics education.
- Your gift is tax deductible.

Send your contribution to the Mathematics Education Trust, 1906 Association Drive, Reston, VA 22091. Make checks payable to the Mathematics Education Trust.
